

Off Farm Inputs Schedule

List all inputs (use additional sheets as necessary) sourced off the property and used on the property in past 12 months. Include fertilisers, sprays, composts, potting mixes, seeds, seedlings, livestock feeds, animal treatments, etc.

Restricted inputs should have prior approval from Regional Body – use “Restricted Inputs Form. Written verification of certification status must be attached for all inputs if possible. Un-certified inputs must have an appropriate affidavit. Inputs without accompanying paperwork must be verified at the peer review, or will become a corrective action (required before a certificate can be issued).
