Supplier Declaration Form

The use of this form is compulsory when receiving non-certified material onto your property.

This form is to be signed by the supplier. It can be used when a declaration is required for bringing material on to your certified property, eg. tree mulch, animal manure, chicken food, fish meal, sawdust.

This form is separate and distinct from the 'Restricted Inputs Application Form' (derogation form), that must be completed by an OFNZ member for restricted inputs, and is given to the Certification Manager for Certification Committee approval of inputs.
